At several points the French troops have gained a footing in the second line and some of them even went right through, but encountering German reserves...

Already large reinforcements for the Germans are arriving on the Western front and their presence has already had the effect of slackening somewhat the Allies' offensive.

Manning Stands For White Rule

Columbia, S. C., Oct. 6—"I believe in the rule of the white people," said Governor Manning in a statement on the situation reported to exist in Beaufort.

"I do not feel that it is proper for the governor to meddle in local politics as a rule, but in this particular case the situation presents a very grave and serious question. The Democratic party stands for white supremacy, and to use the negro vote in an election among the Democrats, is setting a very dangerous precedent for all future time. I can not too strongly stress the importance of white rule in South Carolina. The precedent established by a bolt from the primary for the purpose of using the negro voters in the general election is a most dangerous one.

"Personally, under no circumstances would I accept a nomination or election to any office at the hands of the negro," said the governor. "The negro is all right in his place, but his place is certainly not the ballot box. The white man is the negro's best friend when the negro is out of politics, and the negro himself is happier and more prosperous without the ballot, for the reason that he is not then to be used for the purpose of defeating the will of the white citizens of South Carolina.

Hundreds of vessels will be held up by the closing of the canal for 40 days or more, causing the first very serious interruption of traffic.
